Delta Performance Hall · Published house plot

131 South Main Street, Salt Lake City, UT, US

Sources checked 2026-11-03

Generated by HitLight from the reviewed partial Eccles Theater reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Fixture positions follow the venue’s published lighting plot; the currently installed rig is not verified.

Original printed model names are retained; approximate catalogue housings are displayed where available. Installed identities, native modes and the DMX patch remain unverified.

Fixture heights are approximate; trim heights may differ from the drawing.

41 individually drawn stage fixtures from the January2018 StandardHouseZero preset. This is a partial stage template; the earlier architectural FOH plan has not been reconciled with it.

All41 positions use proper catalogue bodies or labelled mechanical donors. Source-labelled D40 Vivid positions now use the Vivid catalogue profile. Current installed arrays, LED2Lustr generation and actual control patch remain unverified.

A foot ruler supports horizontal scale. Electric row spacing, heights, room frame, focus and labelled clearance tiers are estimates.

The pack’s fly travel limits are not fixture trims. Current installation is unverified and all saved fixtures are excluded from output.

41 records display 41 approximate public catalogue housings or labelled donors and 0 visual fallbacks. 21 source-labelled ETC D40 Vivid positions now use the new source-specific public catalogue fixture with an original approximate shared-family housing. Original placements, selected provisional modes, patch and output exclusions are unchanged. Yoke pose, clamp clearance, optical assumptions and accessory details remain approximate.

Existing source/donor identities, geometry, mode/patch and output exclusions remain qualified.

VENUE & DRAWING SOURCES

Partial source-based planning reconstruction; the current installation and complete fixture census are unverified.

Source-matched catalogue bodies are shown where available. Unresolved source identities remain labelled visual markers. Installed modes and DMX patch require verification; visual-only fixtures remain excluded from output.

21 source-labelled ETC Desire D40 Vivid positions replace Lustr+ mechanical display donors in place. The original approximate shared-family housing and source-specific native profile are reviewed; this does not verify the current installation, installed mode, optics, patch, clearance or calibrated photometry. These fixtures remain excluded from output. Original source/donor labels remain in the preceding immutable revision and guarded journal.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.
