https://www.knap.hr/kazaliste/o-knapu/dvorana-knap/

Sources checked 2026-11-03

Generated by HitLight from the reviewed partial Kazalište KNAP reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Partial reconstruction from the venue’s lighting documentation; the currently installed rig and its complete fixture census are not verified.

ESTIMATED GEOMETRY: the documents give no complete scale or trim heights, so the stage size, fixture positions in metres and hanging heights are best-guess estimates, not measurements.

61 of 61 source-labelled fixture records retain unconfirmed exact installed identities or modes; original printed names and display substitutions remain qualified.

Modes and DMX addresses are unverified best guesses; check them with the venue before driving real fixtures.

29 documented units are not shown because their positions are not drawn to scale or not located in the documents.

61 records display 42 approximate public catalogue housings or labelled donors and 19 visual fallbacks. 4 display references use newly authored generic flood/PAR class housings. These do not identify installed products or verify wattage, optics, native DMX, dimming, rigging or hardware. Original source, geometry, mode, patch and output-exclusion qualifications remain.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.
