F229	Unverified source fixture / ETC Source Four PAR WFL	PLOTTED	Unverified · Output excluded

Planning reference only. Confirm installed modes and patch with the venue.

VALIDATION APPENDIX

WARNING · PATCH_WITHHELD

DMX patch facts are withheld pending source verification. This planning document cannot be used for hardware output.

Objects: — · Remediation: review the source facts and regenerate.

ERROR · STAGE_DIMENSIONS_UNCONFIRMED

Confirm the stage dimensions before producing a final technical document.

Objects: Main room · Remediation: review the source facts and regenerate.

WARNING · MODE_UNVERIFIED

DMX modes are unverified; output remains excluded.

Objects: F001–F229 · Remediation: review the source facts and regenerate.

WARNING · FIXTURE_DISABLED

Fixtures are disabled for this visual planning reconstruction.

Objects: F001–F229 · Remediation: review the source facts and regenerate.

WARNING · TITLE_METADATA_INCOMPLETE

Some professional title-block metadata is missing; the document will show an em dash.

Objects: 8ddf4bf4944d6a5df755aeb2 · Remediation: review the source facts and regenerate.

VENUE & DRAWING SOURCES

Georgia Southern University Performing Arts Center

Main room · House rig

Statesboro, GA, US

https://www.georgiasouthern.edu/campuses/visit/performing-arts-center/rental-information

Sources checked 2026-11-03

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Fixture positions follow the venue’s published lighting plot; the currently installed rig is not verified.

229 source-based fixture records retain their original printed source identities. The current public view has 229 catalogue body references and 0 visual fallbacks. Installed modes and DMX patch are unverified; all original output exclusions remain.

Fixture heights are approximate; trim heights may differ from the drawing.

229 visible fixture positions reconstructed from the October 2, 2025 repertory plot. The key lists four additional Fresnels with no visible position; they are not invented. Current installation and census are unknown.

Shakespeare, Altman Fresnel and Ovation C-640FC units use labelled mechanical body substitutes. Source optic angles are retained as observations; substitute optics and all control modes remain unverified.

Source catwalk, box and balcony elevations are retained. The PDF says not to scale, so scale, registration, stage/side-wall roots, focus and display frame are estimates. This is a partial visual reference with every fixture excluded from output.

One close stage profile uses an estimated lower height tier for body clearance.

229 source-based fixture records currently display 229 public catalogue housings and 0 visual fallbacks. Original source identities, modes, patch and output exclusions are unchanged.

Two source-labelled Altman 1KAF MPF positions retain explicit Colortran 6 mechanical housing substitutes; this does not identify them as Colortran fixtures. All 229 records have public catalogue body references, including the previously labelled Shakespeare, Fresnel and Ovation donors. Installed optics, control and identity qualifications remain.

Existing Colortran 6-inch/8-inch Fresnel / Source Four PAR references now use newly authored approximate public housings. Body details, lens shape and manual bracket pose are estimates. Native controls, fixtures and layout are unchanged. Other-make and unidentified source fixtures using a labelled mechanical donor remain substitutes; this update does not identify installed models, optics or lamp ratings, or establish hardware, clearance or photometric acceptance.

Partial planning view; modes and patch unverified; output excluded.
