Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

90 individually plotted assemblies from the cited source configuration; partial reconstruction, not a complete current venue census.

See the current legend and fixture schedule for fixture coverage. Source identities remain separate from display models.

Scale, height, support and body-envelope assumptions are approximate. Current equipment, source freshness and physical rigging have not been verified.

All fixtures are disabled and have no DMX allocation. Selected display modes do not establish the installed personality, circuit, universe or address.

Public 3D previews display approximate approved catalogue housings where available and labelled visual markers elsewhere. Editable copies retain labelled visual-only fixtures; this page grants no reuse rights to original drawings or manufacturer models.

Partial source-based planning reconstruction; the current installation and complete fixture census are unverified.

Source-matched catalogue bodies are shown where available. Unresolved source identities remain labelled visual markers. Installed modes and DMX patch require verification; visual-only fixtures remain excluded from output.

90 source-based records in this scenario display 75 approximate public catalogue housings and 15 labelled visual fallbacks. 24 existing display references now use their available approved bodies. Source identities, labelled donors, modes, patch and output exclusions remain unchanged; current installation and optics are unverified.

Partial planning view; modes and patch unverified; output excluded.
