GENERAL NOTES

1. Source-based lighting plan. Confirm the current rig with the venue.
2. PARTIAL: included fixtures are not a full physical-unit census.
3. DMX PATCH WITHHELD: provisional or unchecked addresses are not published.
4. Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.

VENUE & DRAWING SOURCES

Sentralen

Marmorsalen · Published house rig (unverified)

Øvre Slottsgate 3, 0157, Oslo, NO

https://www.sentralen.no/

Sources checked 2026-10-28

Generated by HitLight from the reviewed partial Sentralen reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Reviewed as a visual reference on 29 October 2026 using source documents and owner-authorized best guesses. Current physical installation is unverified.

Stage shape, registration, supports, trims and fixture placements include estimates. Confirm technical details with the venue.

Inventory entries describe the chosen preview profiles, including substitute models; they are not an exact installed-equipment inventory or a complete physical census.

Preview mode choices are estimated where undocumented. Live DMX addresses are withheld; the saved fixtures are disabled and unpatched.

Guest 3D displays approximate public catalogue housings where approved bodies are available; unresolved records retain labelled visual markers. Control profiles and original source files remain private.

Event-dependent deck assumed 8x5m at centre/upstage of the 15x16m lighting envelope.

Catalogue identities corrected in place; installed modes, patch, geometry and source currency remain unverified.

85 records display 73 approximate public catalogue housings or labelled donors and 12 visual fallbacks. 2 MAC Quantum Profile display pins now use original public housings. Source identities, modes, patch and output exclusions remain qualified; geometry and optics are not hardware-verified.

18 Bright XLED references use the existing original 12-lens public body edition. Only profile IDs change; exact native modes, printed source labels, stable fixture IDs, disabled/unpatched state and stored placements/mounts are retained. Installed modes, source currency, body detail and geometry remain unverified.

4 existing fixture references now show approved public catalogue housings. Native profile/control bytes, source or donor labels, modes, enabled/patch state and exact layouts/mounts are unchanged. Original identity, optics, source and geometry qualifications remain; no hardware, photometric or rigging acceptance.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.
