VENUE & DRAWING SOURCES

Mondriaan Zaal · Published house plot

Winterswijk, NL

Sources checked 2026-11-03

Generated by HitLight from the reviewed partial Theater de Storm reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Partial reconstruction from the venue’s lighting documentation; the currently installed rig and its complete fixture census are not verified.

ESTIMATED GEOMETRY: the documents give no complete scale or trim heights, so the stage size, fixture positions in metres and hanging heights are best-guess estimates, not measurements.

32 of 32 source-labelled fixture records retain unconfirmed exact installed identities or modes; original printed names and display substitutions remain qualified.

Modes and DMX addresses are unverified best guesses; check them with the venue before driving real fixtures.

32 records display 32 approximate public catalogue housings or labelled donors and 0 visual fallbacks. 8 display references use newly authored generic flood/PAR class housings. These do not identify installed products or verify wattage, optics, native DMX, dimming, rigging or hardware. Original source, geometry, mode, patch and output-exclusion qualifications remain.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.
