KiFF

saal · default; published configuration/current rig unverified

https://www.kiff.ch/

Sources checked 2026-10-19

Generated by HitLight from the reviewed partial KiFF reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Source-based reconstruction. Confirm the current installation and equipment availability with the venue.

Scale, fixture positions, mounting heights and aiming may include estimates; this is not a rigging specification.

Provisional fixture matches are labelled as placeholders. The recorded subset is not a complete physical inventory.

DMX addresses are withheld from public plans until their exact source patch is reconciled.

82 source records display 82 approximate public catalogue housings or labelled donors and 0 visual fallbacks. 2 Atomic3000DMX references now use the original public xenon housing. IDs, labels, selected modes, patch/output state and saved layouts/mounts stay fixed. Native tables and control policies match; body/aperture and derived height change. Source currency, optics and trim remain unverified.

Existing original approximate xenon housing replaces the prior missing public body. Native mode/channel/range/default tables and control policies are unchanged; only the physical-profile hash binding advances. Front aperture, detail, optics and derived hanging clearance are planning estimates, not hardware or photometric acceptance.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.
