Sources checked 2026-10-29

Generated by HitLight from the reviewed partial Kulturkirken Jakob reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Reviewed as a visual reference on 29 October 2026 using source documents and owner-authorized best guesses. Current physical installation is unverified.

Stage shape, registration, supports, trims and fixture placements include estimates. Confirm technical details with the venue.

Inventory entries describe the chosen preview profiles, including substitute models; they are not an exact installed-equipment inventory or a complete physical census.

Preview mode choices are estimated where undocumented. Live DMX addresses are withheld; the saved fixtures are disabled and unpatched.

Guest 3D views display approximate public catalogue housings where approved bodies are available; unresolved records retain labelled visual markers. Control profiles and original source files remain private.

9x4m rectangular reference deck; performance-deck zero. Existing source registration adopted as best estimate.

43 existing display references now use their available approved bodies. Source identities, labelled donors, modes, patch and output exclusions remain unchanged; current installation and optics are unverified.

73 records display 73 approximate public catalogue housings or labelled donors and 0 visual fallbacks. 6 source-labelled ETC D40 Vivid positions now use the new source-specific public catalogue fixture with an original approximate shared-family housing. Original placements, selected provisional modes, patch and output exclusions are unchanged. Yoke pose, clamp clearance, optical assumptions and accessory details remain approximate.

Existing source/donor identities, geometry, mode/patch and output exclusions remain qualified.

Partial source-based planning reconstruction; the current installation and complete fixture census are unverified.

Source-matched catalogue bodies are shown where available. Unresolved source identities remain labelled visual markers. Installed modes and DMX patch require verification; visual-only fixtures remain excluded from output.

6 source-labelled ETC Desire D40 Vivid positions replace Lustr+ mechanical display donors in place. The original approximate shared-family housing and source-specific native profile are reviewed; this does not verify the current installation, installed mode, optics, patch, clearance or calibrated photometry. These fixtures remain excluded from output. Original source/donor labels remain in the preceding immutable revision and guarded journal.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.
