GENERAL NOTES

1. Source-based lighting plan. Confirm the current rig with the venue.
2. PARTIAL: included fixtures are not a full physical-unit census.
3. DMX PATCH WITHHELD: provisional or unchecked addresses are not published.
4. Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.

HitLight

VENUE & DRAWING SOURCES

Mount St. Joseph University

University Theatre · Published house plot

5701 Delhi Road, Cincinnati, OH, US

https://www.msj.edu/about/facilities/university-theatre.html

Sources checked 2026-11-03

Generated by HitLight from the reviewed partial Mount St. Joseph University reconstruction. Venue sources are cited as facts; their original artwork remains private.

Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

Fixture positions follow the venue’s published lighting plot; the currently installed rig is not verified.

186 source-based fixture records retain their original printed source identities. The current public view has 178 catalogue body references and 8 visual fallbacks. Installed modes and DMX patch are unverified; all original output exclusions remain.

Fixture heights are approximate; trim heights may differ from the drawing.

186 individually located whole housings from the1997 house plot with revisions through2017. Circuit labels, supports and key symbols are excluded. Installation and freshness are unverified.

178 positions have public catalogue body references or labelled donors. Legacy profiles, twenty ambiguous slashed end housings, Fresnels, PARs and generic LED washes retain unresolved makers/optics. Eight unidentified RGBA cyc bars remain visual fallbacks. Two SuperStar1.2-family positions now use original public1275 family donors; exact installed followspot models remain unverified.

Source electric offsets inform rows. The reduced PDF scale, working trims, displaced FOH and boom registrations, arm spacing, focus and clearance tiers are estimates. This is a partial visual template.

All fixtures are excluded from output. Physical rigging, patch and control remain unverified.

186 source-based fixture records currently display 178 public catalogue housings and 8 visual fallbacks. Original source identities, modes, patch and output exclusions are unchanged.

Twenty-two unidentified six-inch Fresnels retain Colortran6 housing substitutes. Of186 records,178 have public body references. Eight unidentified RGBA cyc bars remain fallbacks; two SuperStar1.2-family positions now use original public1275 donors. Exact installed followspot model numbers remain unverified.

Existing Colortran 6-inch/8-inch Fresnel / Source Four PAR references now use newly authored approximate public housings. Body details, lens shape and manual bracket pose are estimates. Native controls, fixtures and layout are unchanged. Other-make and unidentified source fixtures using a labelled mechanical donor remain substitutes; this update does not identify installed models, optics or lamp ratings, or establish hardware, clearance or photometric acceptance.

2 existing Lycian display references now use original approximate public1275 housings; all 186 saved fixture identities and placements are retained. Printed1266 or SuperStar1.2-family identities remain labelled mechanical-family donors, not confirmed1275 units. One existing authored virtual byte previews a manual dowser only: no nativeDMX, mains or HMI-ballast dimming. Stand/ballast omitted; geometry, optics, installed model/mode and patch remain unverified.

Approximate planning view; not official venue paperwork or output-ready. Original HitLight symbols only; no source pages, OEM meshes, photos or logos. Original files remain private; modes and patch unverified.

Fixture plot original; visually inspected page(s) 1. Freshness and reuse rights unconfirmed.: https://www.msj.edu/files/theater/LIGHT_PLOT_2017_FULL.pdf · checked 2026-11-03
