Symbols: HitLight-owned category artwork. No manufacturer model geometry or original source pages included.

25 individually plotted bodies; see the current legend and fixture schedule for fixture coverage.
All output-excluded.

Fixture classes/models and modes include clearly labelled visual estimates. Generic bodies represent unknown source products; manufacturer identity, wattage and optics are not asserted by those selections.

Stage dimensions, hanging heights, mounts and focus are approximate; the patch remains unverified. This is a partial visual reconstruction, not a control-ready installation.

Original source dates do not establish current physical presence or a complete venue census.

25 source-based records in this scenario display 8 approximate public catalogue housings and 17 labelled visual fallbacks. 8 existing display references now use their available approved bodies. Source identities, labelled donors, modes, patch and output exclusions remain unchanged; current installation and optics are unverified.

Partial planning view; modes and patch unverified; output excluded.
